FILTHY CONDITION OF THE STREETS

AN APPEAL TO THE PEOPLE, &c., &c., &c.

Municipal Affairs.

The Board held their eighth meeting of the June session last evening—Abraham Wakeman, Esq., President pro tem, in the chair.

President pro tem, in the chair.

NEW FIRE ENGINE.

The petition of John Calven and others, residents of the Sixteenth ward, to be organized as a fire engine company, in place of Engine Company No. 16, lately disbanded, was granted.

DRIVING CATTLE THROUGH THE STREETS.

The petition of Alfred Pell and others, to prevent the driving of cattle through the streets of the city of New York, which they designate as a flagrant nuisance, dangerous to the lives of citizens, and ought to be forthwith abated by our municipal authorities. Referred to Committee on Ordinances.

Alderman Howake offered—

Resolved, That the Committee on Ordinances be, and they are hereby, directed to report an ordinance at our first meeting in July, to prevent cattle-driving in the streets during business hours.

The same petitioners pray that some portion of the water front on this inhand—where the water flows fresh from the ocean twice in twenty-four hours—be set aside for the pripose of a public bathing place. Referred to same committee.

A petition from Patrick O'Neil, asking the Board

A petition from Patrick O'Nell, asking the Board

A petition from Patrick O Nell, asking the Board to grant him the privilege of exhibiting for a few weeks in the City Hall his model plans for an elevated railroad and promenade relief of Broadway, was referred to Committee on Arts and Science.

Aportus.

The following resolution was effected by the Alderman of the Third ward: That the Street Commissioner be and he is here by ordered to notify the owners of property 294, 28, 298, 800, 302, and 304, being on the west side of Grocawich street, between Chambers and Reade Streets, to make their curb being on the west side of Greenwich street, between Chambers and Reade streets, to rules their curb and gutter so as to correspond with the old and established grade of the street, and with the adjoining lot on the corner of Roade and Greenwich streets, and the same to be done before the street is graded, and the grade to be given by the Street Commissioner.

SINTE AND EIGHTH AVENUE BALEBOADE.

SETH AND EIGHTH AVENUE RAILBOADS.
A communication from the Comptroller that for
the month of May the following were the receipts
of the Sixth and Eighth Avenue Indironds:
Sixth Avenue Railrond Company. \$22,305-91
Eighth Avenue do. do 26,547-17

Total. \$19,853 08

CONTRACT OF CLEANING THE STREETS,
Alderman Lord offered the following resolution
to confirm the street cleaning contracts:—
Resolved, That the contracts for cleaning streets
which have been accepted by the contractors, as
reported by the Commissioner of Streets and Lamps,
be, and the same are hereby, confirmed.
Alderman WM. Tucker said he understood the
motive of the Commissioner of Streets and Lamps in
holding back the contracts from the Board. He had
inview the full election, and street sweepers could
poil a greater number of votes than contractors.
Alderman Tucker was of opinion that the committee on contracts should have reported on them before now.

fee on contracts should have reported on them before now.

Alderman Howand bore testimony to the cleaning of the streets of the Sixth ward. They had been
done better under Mr. Glasier than he ever knew
them to have been cleaned.

Alderman Brows was of opinion that the street
cleaning contract would again prove a failure. The
present was not the season for experimenting, and
he hoped that the work would be left to the management of the street department.

Alderman hore contended for the confirmation of
the contracts.

Adderman More contended for the confirmation of the contracts.

Adderman Voorries said that in his ward (the Ninth.) Mr. Glasier had done the best he could, but that as the contractor of that ward was already a defaulter, he (Alderman Voorbies) moved to have the name of the contractor of the Ninth ward stricken from the list.

Other members having taken part in the discussion, the resolution was put and adopted by a vote of twelve to seven.

FIGURE CLEANING CONTRACT—STATEMENT OF THE MANNER IN WHICH TERN WEIGHT OF THE

THEY CLEANING CONTRACT—STATEMENT OF THE MANNER IN WHICH TEEN WERE GIVEN OUT.

The Alderman of the Third ward ofered the following communication from B. McCafferty, showing the reason why the streets were not cleaned, together with the subjoined preamble and resolution:—

STATEMENT CONCERNING THE MANNER IN WHICH THEY WERE GIVEN OUT.

I proposed and offered to take the contracts for cleaning the First, Second, Third and Fourth Districts, as oblows—

First Patrict \$8,000. Given out \$11,800. Difference \$2,300

10 justice to myself and the public. I deem it my duty to make this brief statement, to show why the streets are not cleaned and who is the cause of the same. According to the terms called for in the printed specifications, furnished at the office of the Commissioner of Streets and Lamps. I put in seaded proposals for cleaning the above named districts as above. This I did in good faith, after a careful examination of the work to be done with sufficient means and supic security for the fathful performance of said work. On Monday, April 24, about 12% of cleak, all bids for doing the various dristricts of the city, were to be done with a sufficient means and supic security for the fathful performance of said work. On Monday, April 24, about 12% of cleak, all bids for doing the various dristricts of the city, were to the presence of the Computation. On The 15th I ascertained that I was the lowest biddler for the 15th of district. On Wednaday, the 29th, I called at the office of the Commissioner to accertain when my contact for the Third district would be roady. His clerk informed me that they were then very busy in the office, but would have it ready in a few days, after speaking to the clerk I told Mr. Ginzier that I was the lowest on the I hird district and that I had also bid for three others, and in case any or all of them should come to me I would take them at my offers. In commissioner said very well, and requested me to make that statement to the clerk, I did so. This was between 8 and 10 of clock, A. M. The cierk informed me that he had notified the lowest didders for the first six districts to appear there that day at noon, and asked in to be there also, although he was the contact of the contact

In 1853 I directed Engine Company No. 17, for insubordination of the Alderman of the Dirit ward, this the 3d day of June 1864.

Whereas, The public are loudly calling for the streets to be cleaned, and many inquiries are made why they have not been thus cleaned, supposing that the same has been contracted for, and the Common Council are blamed in consequence of the same not being dore—the blamed in consequence of the same not being dore—the blamed in consequence of the same not being dore—the blamed in consequence of the same not being dore—the blamed in consequence of the same not being dore—the blamed in consequence of the same how contracted for, and the Common Council passed the retinance causing the same to be contracted for, and the common Council passed the retinance of Streets and Lamps, of with the possession of the streets and Lamps, of this first of the parameter of Streets and Lamps, of the gutters of the streets are filled with garting the propers that the above resolution, as I consider that all the common counsel propers that the above resolution be restricted. The limits of any company to do duty in such districts as he may be company to do duty in such districts as he may be company to do duty in such districts as he may be company to do duty in such districts as he may be company to do duty in such districts as he may be company to do duty in such districts as he may be company to do duty in such districts as he may be company to do duty in such districts as he may be company to do duty in such districts as he may be company to do duty in such districts as he may be company to do duty in such districts as he may be company to do duty in such districts as he may be company to do duty in such districts as he may be company to do duty in such districts as he may be company to do duty in such districts as he may be company to do duty in such districts as he may be company to do duty in such districts as he may be company to do do duty in such districts as he may be company to do do duty in such di

etatement of B. M'Cafferty, accompanying this resolution, be referred to the Law Committee, and that they do hereby investigate the matter and report to this Board whether or not charges can be brought against the said Commissioner of Streets and Lamps sufficient to remove him from said department.

Alderman Blunt moved that the whole matter be referred to the Committee on Law Department.

Alderman Blunt moved that the resolution be laid on the table, and the communication referred to the Committee on Repairs and Supplies.

The Charkman declared the motion out of order. Alderman Herrica the motion out of order and the consument.

Alderman Herrica the motion out of order the communication. He desired that the people should know with whom the fault lay for not cleaning the streets.

On motion of Alderman Howard, the resolution was laid on the table by a vote of 11 to 8.

Alderman Herrica said the Alderman of the Third ward (Slunt) had accomplished his object in proposing the matter, which would now be published in the newspapers.

Alderman Morr then moved to refer the communication which accompanied the resolution to the Committee on Streets. Carried.

Alderman Howard then moved a reconsideration of the resolution, already adopted, confirming the contracts, but, having voted in the negative, he was declared incompetent to make the motion. Alderman H. then appealed to some good democrat around the Board to make the motion, but no person responding the matter dropped.

MISCELLAS BOUS.

The report of the Committee of Repairs and Supplies, in favor of appropriating the grand jury room

around the Board to make the motion, but no person responding the matter dropped.

MISCELANEOUS.

The report of the Committee of Repairs and Supplies, in favor of appropriating the grand jury room in the basement of the new building in the Park for an office for the Receiver of Taxes, was received and adopted. The report of the Committee on Finance, in favor of resolution authorizing the payment from "county contingencies" of the expenses and salaries of the officers of the Court of Common Pleas, was adopted. The return of the Chief Engineer, with a statement of appointments, resignations, and expulsions in the Fire Department, for April, 1854, was received. The report of the Committee on Finance, in favor of concurring to increase the compensation of the foreman and cartmen employed in paving the streets, was adopted. The report of the Committee of the Fire Department, on the communication from the Chief Engineer, expelling A. P. Sutton, foreman of Engine Company No. 30 for disobelience of orders, and suspending Frank Swords, Joseph Godfrey, Wm. Swords, George Beebe, Robert Lindsey, William Hall, Joseph Williamson, Patrick Hughes, James Dulton, Abraham Brown, and John Hutchinson, for Sixty days, was adopted. A resolution, directing the Commissioner of Repairs and Supplies to remodel the chamber of this Board, was offered by Alderman Brown; but, after some opposition, was withdrawn. The report of the Councilmon, on the sole of the Fort Gansevoort property, was again called up, and its reference to the Law Department was lost by a vote of 10 to 11.

On motion, the Board adjourned till the first Monday in July next, at 5 o'clock in the afternoon.

was lost by a vote of 10 to 11.

On motion, the Board adjourned till the first Monday in July next, at 5 o'clock in the afternoon.

BOARD OF COUNCILMEN.

The Board met last evening, Edwin J. Brown, Esq., in the Chair.

PETITIONS REFERRED.

For cleaning bulkhand at the foot of Laight street. Adverse to sewer in First street, from First avenue to the Bowery. Of Michael Tulhec, and others, for Croton water pipes in Fifty-second street. Of Thomas McLarly, and others, to have Bighty-second street opened. Of Ralph Post, and others, to have piers Nos. 10 and 11 cleaned.

PETITION NO FJOHN N. GENIN FOR STREET CLEANING. The Chair then announced that the following petition was on the table, from John N. Genin, relative to cleaning thestreets of the Sixteenth ward.

A MEMBER—I move for the reading.

The reader then read the following document:—
To the Honorabit first Common Council of the City of New York—

The undersigned desires, in fitting terms and with all the profound respect due to your honorable body, to address you as a petitioner for such lawful aid as it may comport with your duty and inclination to grant, in furtherance of the objects hereinafter set forth. Your petitioner would in the first place, state to your honorable body, that the present condition of the Sixteenth ward is such, as in the opinion of your petitioner and of other residents in said ward, will institutly produce some deadly epidemic, if measures for removing the fifth now rotting and recking in many of the streets thereof, be not speedily redopted Anxious that the ward aloud escape the threatened visitation, your petitioner of the produces of the control of the produces of the control of the produces of the form your honorable body, permission to supervise, without compensation, the chansing of the public streets of said ward, and will cheerfully give bonds for the faithful application of the funds necessary for the produces of action pursued by that department, the can be produced to the supervise of the from such cases made and provided, n

charter of 1853 forbid any such action on their part.

Mr. Kennedy said that he desired to say a few words relative to the petition. When the gentleman presented a similar petition the other evening, he asked for the reading of it, so that the Byard might know the impudence of the said Genin, and I was abused for it by all the newspapers who hold Mr. Genin up for Mayor, and support his measure for cleaning a ward at a great deal higher price than the gentlemen to whom the contract had already been awarded. Mr. Genin offered to clean the ward for \$400 per week, while the contractor offers to do it for \$181. Now, in view of those facts, he thought the offer of Mr. Genin was not so very patriotic after all. He then called Mr. Genin the head scavenger of New York, and concluded by saying that he would meet but little sympathy among the members of the Common Council.

Mr. Seely—I move to lay the petition on the table. Agreed to.

table. Agreed to.

RESOLUTIONS REFERRED.

That the sidewalks on Sixth avenue, between 123d and k20th street, be flagged under the direction of the Street Commissioner. That the Commissioner of Streets and Lamps be directed to transmit to the Common Council immediately, for confirmation, the contracts for cleaning streets, as reported by him June 9, 1852.

CHANGE OF HOUR FOR MEETING.

On motion, the rules were changed by a two-

On motion, the rules were changed by a two-third vote, so that the Board could meet every day during the warm weather, except Saturdays and Sundays, beginning at four o'clock, so that their business could be finished in ten consecutive nights. The motion to take effect on the 1st of July. REMOVING THE BAILS OF THE HABLEM BAILROAD

BESOVING THE RAILS OF THE HABLEM RAILROAD COMPANY FROM THE CITY.

By Councilman Monaghan—Resolved that the Street Commissioner be directed to take up the rails of the Harlem Railroad Company in Centre and Broome streets, Bowery and Fourth avenue to Twenty seventh street, and have the streets repaved and placed in proper travelling order, and that \$3,000 be appropriated therefor. Referred to Committee of the Whole.

By Councilman Curry—That Thirty-first street be paved and repaired from Sixth to Eighth avenues. Referred to Committee on Streets.

Exports of committees.

A number of unimportant reports were then read and referred to the Committee of the Whole.

The Board then adjourned until Friday afternoon at the usual hour.

The Fire Department.
TO THE EDITOR OF THE NEW YORK HERALD.
Alfred Carson, Chief Engineer of the Fire Depart-

ment, has placed in my hands the following docu-ments, addressed to the Common Council of the city of New York, which have never been published in the pub lie journals. They are on the subjects of insubordina tion and the Broadway calamity, on both of which Mr. Carson has been grossly misrepresented by several news papers in this city. As an act of justice, therefore, to my friend, and in order that the public may read value my friend, and in order that the public may read valua-ble suggestions respecting the correction of the evils of insubordination in the Fire Department, I respectfully request you to publish the following compilation of Mr. Carson's recent reports. STEPHEN H. BRANCH. TO THE HONORARM THE COMMON COUNCIL:— In 1853 I directed Engine Company No. 17, for insubor-dination, to remain in its own district; but the Common Council (then in session) immediately— "Besolved, That Engine Company No. 17 be, and they are hereby authorized to do duty in the Sixth and Sev-enth districts of Engine Company No. 17, were the Effin

attributable to those companies who leave their districts on Saturday nights and Sundays, accompanied by gangs of young acumps, whose sole motive is to involve fire companies in street fights. It seems hard to suspend or distend companies thus brought in collision by the "runners," but unless the companies implicated can show that they do not harbor persons of bad character around their apparatus, and in their fire houses, the companies should be accountable for the neferious acts of the runners, should be accountable for the orders of the runners, and if the policemen would arread all rowdies collected on the corners of streets for the extrass purpose of running with and attacking fire companies, rowdylam would soon receive its quietas as connected. Ith the fire department. But the policemen say that they cannot legally arread those excoundrels until the row be that and when it does begin, the policemen run as fast as their legs can carry them to their house or to the station house.

Companies should not be permitted to foist the cause and result of their collisions on the runners, all hough the runners were the cause; but. I repeat, that if companies have not the will, and the moral and physical courage to die-ard the runners, then they themselves should be respectible for the violation of the public tranquility, the destruction of the public apparatus, and the mangiest bodies, so common of late. Nor, should the subtle excuse that their runks were too this, serven the companies from merited punishment. For, if they would himly resolve to have no vagabonds about their apparatus or the happy result when companies have resolutely adopted this course.

It is unhawful for idle vagabonds to assemble in the fire apparatus houses, tey would soon get rif of them, when respectable persons would gladly fill up their ranks, thas decident do y the runners they had harbored. This has already been the happy result when companies have resolutely adopted this course.

It is unhawful for idle vagabonds to assemble in the fire

Chief Engineer's Office, March 16, 1854.

The following communication was received from the Chief Engineer of the Fire Department, in answer to a resolution of inquiry as to reinstaling members, viz:—

To the Honemanic the Boain of Aldenties; viz:—

To the Honemanic the Boain of Aldenties; viz:—

Gintidines—in reply to the greamble and resolution adopted by your honorable rody, as follows:—Whereas in the Commercial Adverties of May 4, 1854, there was published as follows, viz:—

From the Commercial, amont fail to excite attention.

The Chief Engineer of the Fire Department, who must be regarded as a competent and friendly witness, testified that within his knowledge a gang of men, wearing the garb of firence, attended fires for the purpose of stealing; that he has known members of the Fire Department to be caught thieving; that in one case of a member expelled for stealing at a fire, the Common Council had reinstated him; that a member, who is now foreman of an engine company, find been thus expelled and reinstated; that sometimes persons have attended fires, dreated as firemen, though not members of the department; and that in his indigenet more than one-half the fires that occur in fils city are the work of incendirate; therefore.

Ecoliver, That the Chief Engineer of the Fire Department to requested to inform this Roard whether the present Common Council have re instated any member of the fire department, and that has indigened more than one-half the fires that occur in fils city are the work of incendirates; therefore.

Ecoliver, That the Chief Engineer of the Fire Department be requested to inform this Roard whether the present Common Council have been fully and correctly reported in the public press, there would have been to accessity for the resolution of inquiry, as in giving my evidence, after stating that I had known of members being reincited by the Common Council after being expelled for stealing, the question was asked, 'Have the present Common Council so reinstated any whole and previous Council,

chief Engineer's Office, May 15, 1834.

To the Honorame the Common Councit :—
On Sunday, the 4th instant, a bloody remounter was anticipated between engine companies Nos. 15 and 21, and several thousand persons assembled to witness it. In view of the extraordinary excitement, and fearing a dream'd con fliet should they meet, I directed both eagines to be ron into their houses torgue first, and to remain there until further orders.

About 10% o'clock on the same evening, and after I had given the above directions. I met about 150 persons on their way to the house of No. 9. Some of these persons were members of No. 21, and the residue were runners, and the whole gang was led by the foreman of engine company No. 21, whom I immediately took aside, when he said that they only intended to cheer No. 9. I told him that such conduct from the officer of a fire company was highly improper, especially on Sanday vereing, and requested him to tell his party to go quietly to their respective homes, which he assured me he wouls do. But instead of doing this, he marched his excited party to the houses of several fire companies, giving cheers and grouns according to his friendship or hatred of the respective companies he visited, striving thereby to renew the fearful excitement that pervadud the city at an early hour of the evening.

I do most fervently hope that measures will be immediately adopted by your honorable body to check these Saturday evening and Sanday broils, which are a viel disgrace to the city, and which are chefly caused by those mischievous, thievish, and at the political groggeries, about their courage at fires, and their arrest of runners, but it is all fallacious. The policemen fly before the runners as chaff before a while her arrest of runners, but it is all fallacious. The policemen fly before the runners as doing the force of the infamous conduct of their runners.

All I again recommend, what I have so often proposed to your souther and of the large of the companies, in all cases, responsible for the inf

Mr. Genin's Dirty Streets Manifesto.

TO THE PROPLE OF THE CITY OF NEW YORK.
FELLOW CITIZENS-On Monday last, the 12th inst., I ad-Finlow Citizess—On Monday last, the 12th inst., I addressed to the Common Council a respectful communication setting forth the filthy condition of the Sixteenth wardin which I reside, asking that an appropriation be made for its purification, and offering, if the necessary funds were voted, to superintend the work, giving sequences of the council of rity for the faithful application of the money and receipts and vouchers for all sums expended. This com-munication was presented to the Board of Councilmen on Monday evening, and provoked, as it appears from the papers, and as I learn from other sources, a storm of indignation, which burst upon my devoted head in such phrases as "impudent assumption," "volunteer

until the contracts for street cleaning under the new charter should be perfected. It is now several weeks since the hids for those contracts were submitted to the Commissioner of Struets and Lamps, but the sward, for reasons best known to that department, have not yet been presented to the Common Council. During the interfin, the power to remove nuisances defrimental to the public health must re-ide some eners, and as the responsibilities and duties of the city government are so much divided that it is difficult to place them. I hope there is no especial 'impudence' or 'insumption' in applying to the fountain head of authority—the representatives of the people—for the assistance required to remove the recking churents of pestilence.

For myself, as a taxpayer of the Sixteenth ward, I claim, in common with my fellow taxpayers in that ward the right of jetition and remonstrance in a matter of vital importance to the health of the ward. The charge of 'impudence,' if appears to me, should be applied to those who deny or contemn that right.

We are compelled by last to pay taxes; that is, to pay certain sums annually, for which we are to receive certain benefits in refurn, such a due protection for our lives and property and if we pay for these things, and co not receive the situalised good pro quo, we are surely justified in ashing the government that we support to perform the part of the joint contract. If this principle is denice, then I deny the obligations of the citizens to pay taxes; may, I go farther than that, and say, if the recipre city is to be all on one side, if we are to be repelled with abuse when we ask the city government to fulfil its portion of the condition of the mutual bond between the rulers and the ruled, the taxed and the tax-levyers, the sooner we adopt a provisional system and leave our unfaithful and insolent representatives to their own device, the better. Weepsy our public servania to execute certain trusts confided to them, and if they will not execute them, and add insult to injury

Police Intelligence.

The Alleged Murder on Shipboard—The brig Catharine Sheran, of St. John, N. B., on board of which a marder was said to have been committed a few nights since, sailed on Tuesday for St. John, the captain and crew, as the police report, having been intoxicated. There seems to be some doubt of a murder having been committed on board the vessel. The mate, when he informed the police that James Fox, a private watchman, had been thrown overboard was parly intoxicated, and on being questioned closely, said that he thought Fox had been thrown overboard. A mother report is, that a bearding house runner, and not one of the crew, throw him overbeard. A small boy who was on the vessel at the time, states that he saw Fox in the water, and that a man in a small boat picked him up. The police, however, think that he was drowned, as he has not been seen since.

ever, think that he was drowned, as he has not been seen since.

Arrest of a Pickpocket —A notorious character named William Lees, alias Williams, was arrested on Tuesday evening at the Hudson River Raitroad depot, by officer Munsen, of the Twentieth ward, charged with picking the pocket of a lady passenger on the down train. He was taken to the Second district police court, and committee to a wait examination.

Charge of Grand Larceny.—An Italian named Ferdinand Verner was yesterday arrested by officer Jourdon, of the Sixth ward, charged with having, on the 7th utt., atolen \$193 in gold coin from Desier Deberie, of 93 Da ne street. It is alleged that the accused asked to take the gold in his hand to feel how heavy it was, but on getting possession of it he ran off and escaped. He was taken before Justice Obsorne, and committed to prison to await examination.
